w/ Comm.
Funding and
content
of report.

- CURRENT DISTRIBUTION OF CEDAR CREEK -
- LONG TERM RESOLUTION OF SITUATION -
- PCD - Cleveland Canal.
- Discharge at Mine. ^{currently 3 families} more people will be moving in -
- Hiawatha rights < city - ^{new portals at} operation of other mines. Moreland.
- Cedar Creek Ranch -

No water was flowing at Moreland until they shut off the pumps at Hiawatha.

Water rights at Hiawatha

$$\begin{aligned} 251 &- 0.942 \text{ gfs } \\ 316 &- \frac{0.058 \text{ gfs}}{1.00 \text{ gfs}} \end{aligned} \quad \left. \begin{array}{l} \text{ } \\ \text{ } \end{array} \right\} 101.92 \text{ AF.}$$

Measuring device on Moreland pipeline? request sent to S.E. that a measuring device be required.

Beneficial uses currently?

Non-use applications on 251, 316 - should water be used?

Will mine discharge water be used in Moreland or Hiawatha area?

What more is needed beyond the 101 AF to do the development work at Moreland & more than this.

Hiawatha mining operation 75 - 100 gpm

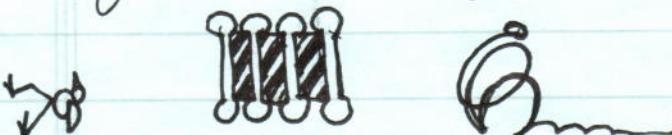

mine
2 min operations
(50 - 200) gpm

Other water sources available at Hiawatha

Cedar Creek Ranch - owned by AWR - land bought by River Gas - water rights. Land sold then to other companies.

Huntington/Crookland asked AWR to develop a list of water needs at Moreland & Hiawatha.

- Huntington wants some water to come down all ~~the time~~ year around for stock watering etc. as reliable water supply for stock watering.

→ How much water needs to be diverted into the Moreland pipeline now and later. interim agreement for now for use in Hiawatha. develop projected needs.

The portal ^{mine} is the most reliable source of water in Cedar Creek
